Three month programming MENTORING COURSE

conducted by

THE Lycaeum

The Lycaeum announces a new batch for the successful
3 month programming mentorship course.

Contents

Learn basic tools like git, emacs, UNIX etc. emphasising
real world use to make your foundation strong

Work on a project with emphasis on good design, real world
collaboration, automated testing and good documentation.

Walk through an existing production quality open
source codebase to see how it ticks.

Benefits

Learn skills that will be useful to you in the real world.
Become a professional developer and not just an enthusiast.
Read and understand production quality code rather than toy programs.
Placement assistance and long term mentorship

Further information

Course conducted by Noufal Ibrahim. An industry veteran with close
to 15 years of experience, free software contributor,
founder of PyCon India and long time corporate trainer.

Registrations close at the end July, 2015. Classes will start soon after.
